

LOGGDIN

DUBLIN · PERGOLA CONSULTATIONS

Booking for outdoor.ie

A drop-in consultation calendar, built and managed by Loggdin.

PROPOSAL — V1 · CONFIDENTIAL

THE PROBLEM

The enquiry gap

Every consultation still starts with a form, a phone call, or an email. The people most ready to buy are the ones who get stuck.

1

Decided customers hit a wall

Someone ready to buy a pergola wants a time — not a contact form that goes nowhere at 9pm.

2

Back-and-forth loses the lead

Phone and email tag over several days cools a warm intent into a maybe.

3

Nothing lands in your diary

No automatic calendar entry, invite, or reminder. The team schedules by hand.

0 online bookings today — every consult is still manual.

THE WEDGE

When intent is highest, the path is longest.

A customer is on your pergola page at 9pm and wants Friday 2pm. The form can't give them that. So they leave — and they don't come back.

TODAY

Customer decides → phones
next day → may forget

CONTACT FORM

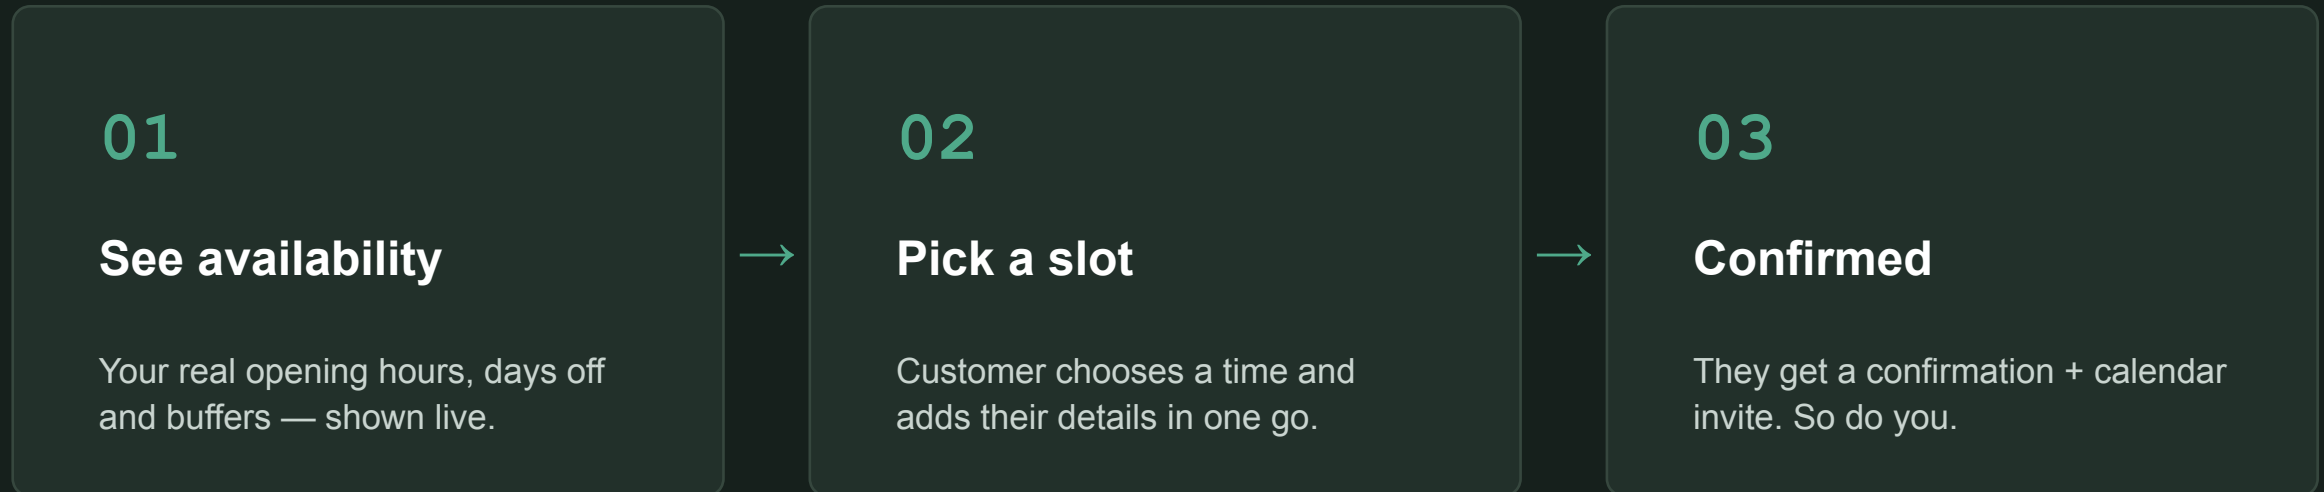

Sends an email → waits for a
human to reply

WITH THIS

Picks a live slot → confirmed in
30 seconds

THE SOLUTION

A real booking calendar on your site. Zero install.

No plugin. No theme change. No new login for your team.

HOW IT WORKS

One code block. Three moving parts.

01 · We drop it in

A single config-driven block goes on a new WordPress page. Edit four values — that's the only code touch.

02 · Customer books

They open the page, see live slots, and book with their email. Reschedule or cancel any time from the email.

03 · Booking lands

Every booking copies sales@outdoor.ie and drops into the team calendar. No one logs in to check.

Backend runs on Cal.com — availability, invites and reminders are managed there, not in your site.

BETTER, NOT JUST DIFFERENT

Why not keep the contact form?

CAPABILITY	CONTACT FORM	LOGGDIN BOOKING
Real, live time slots	X	✓
Calendar invite sent	X	✓
Automatic day-before reminder	X	✓
Customer reschedules themselves	X	✓
No staff login to check bookings	X	✓

INVESTMENT

What it costs outdoor.ie

Set up once, then managed by Loggdin. Specific figures confirmed in the accompanying quote.

SETUP

One-time

We build the page, wire up the Cal.com calendar, availability and branding.

ONGOING

Monthly

We manage the calendar, handle changes to hours/holidays, and keep the embed working.

INCLUDED

Always

Reminders, reschedule/cancel links, calendar invites, and the sales@ copy.

WHAT YOU GET

Value to outdoor.ie

24/7 capture

Warm leads book themselves, even outside office hours.

Zero scheduling time

No one manually arranges or chases consultations.

Runs on what you have

Sits on your existing WordPress site. No new platform.

Fewer lost enquiries

A real next step on the page instead of a dead end.

ROADMAP

From preview to live

Preview

Test on a draft page, no one sees it yet.

P1

P2

Cal.com setup

Account, event type, availability and branding.

Go live

Publish + add the 'Book a consultation' button.

P3

Expand

Add booking to other services you offer.

Insights

Review booking patterns and busy periods.

P5

P4

GO TO MARKET

Catching customers at intent

Button on pergola pages

'Book a free consultation' sits where the decision is made.

Intercept, don't interrupt

Offer a time to people already interested — not a cold ask.

Keep the enquiry form

Questions still go to the form; bookings go to the calendar.

Promote in follow-ups

Drop the booking link in quotes and after-visit emails.

THE ASK

What we need to start

1

WordPress admin

Access to add a page and paste the block.

2

Cal.com account

Or we create one and hand over the keys.

3

Bookings email

sales@outdoor.ie —
copied on every booking.

4

A go

Approve the page and we build, test and launch.

From zero to logged.

A booking calendar that captures the customers who've already decided — and gets them in your diary without the back-and-forth.
